

Young Engineers Program

About the program

The maxon Young Engineers Program (YEP) supports innovative projects that use electric drive systems. Share your vision with us so that it can become reality.

Benefits for the participants

As a participant in the program, you will enjoy a number of benefits:

- Motors, gearheads, and controllers at discounted prices or even free of charge.
- Technical support from our experts.
- Promotion and communication of your project on maxon channels (provided that the project is not confidential).

How to take part

Complete the online form. Our expert team will check your entry and inform you whether and in what way your project will be supported by the YEP.

Discover other innovative projects

Many innovative engineers are in the same situation as you. Find out about the projects that we present regularly on our corporate blog: www.drive.tech

Event organizers

If you are planning an event, you can also take part in our program. Simply fill out the form and we will contact you. You can benefit from having your event advertised on our communication channels. Your event may also be included in our sponsorship program.
